Stainless Steel Countertops

2130 N Glassell St., Orange, CA 92865
Phone: (833) 392-3462 | www. labfurnishing.com

Stainless Steel Countertops

• 16 or 14 gauge, type 304 or 316 stainless steel. Other gauges and types of stainless available to meet the function and chemical resistant demands of highly specialized labs.

• Standard front edge Square or Box Marine, unless otherwise specified.

• Back and end splashes are manufactured per specification.

• Either a mechanical hairline seam or field welded joint available per your specifications. Maximum length without seam is 144″ if no end splash. Length is reduced by 5 1⁄2″ for each end splash that may be required.

• Fabricated sink bowls available in most any size and depth with single or multiple compartments.

• For backsplash mounted faucets, splash will need to be at least 2″ deep for plumbing access, holes for deck mounted faucets are typically centered 1 1⁄2″ from the edge of sink bowl.

• Both L-shaped and U-shaped tops are available per your drawings.

- Corners are mitered and factory welded.
- Maximum size without field joint provisions is 96″ x 96″ to fit into standard trailer for ground shipment.

• Countertops have stainless steel reinforcing hat channels. Sound deadening tape is factory installed. Top support options include National Sanitation Foundation (NSF)-listed sprayed latex sound deadening and marine grade plywood backing with white laminate facing.

• Standard packaging is wood reinforced cardboard and is included in the cost. Should full crating be required, it too will be included in the cost.
